Jane still has to recover 2 HSS/CS electives for third year. We suggest that he takes 1 HSS/CS elective in the Summer 2007 session and that he does not overload in the repeat session coming up.

He may choose to repeat all the technical courses that he took in the previous session. He will have to repeat ECE472H1 S in Winter 2007.

Paul should ensure that he checks his course selection with Magellan to ensure that he fulfills both course and CEAB requirements with his third and fourth year study plan.
