

Request to enrol in the Biomedical Engineering Minor

To enroll, please complete the information on both sides of the form and return to the address below.

Personal Information

First Name of Student	Last
Student Number	Email Address
Current Year of Study	Degree Program (& Major if EngSci)
Date	Student Signature
UTOR ID (If you would like to be added to the Blackboard Community)	We use Blackboard to provide important information and updates about Minor courses

Requirements

Completion of this minor is subject to the following constraints:

1. Students must ensure they meet the requirements of their chosen Engineering-degree program or Major.
2. Students **MUST** attend the next available orientation session for the minor (normally September).
3. Students **MUST** complete three mandatory courses and one elective from each option (equaling 3.0 credits) for the BME minor.
4. Enrollment in BME498Y and BME499Y is not guaranteed; approval to register in either course must be obtained from the Associate Chair, IBBME – Undergraduate and is normally restricted to students with a cumulative average of at least a B in the year prior.
5. Availability of the courses to complete an Engineering Minor (including the foundational courses) for timetabling purposes is not guaranteed; the onus is on the student to ensure compatibility with their timetable.
6. Students must secure approval from their home Department before selecting any elective outside their home Department.

Note About Privacy

The University of Toronto respects your privacy. Personal information that you provide to the University is collected pursuant to section 2(14) of the University of Toronto Act, 1971. It is collected for the purpose of administering admissions, registration, academic programs, university-related student activities, activities of student societies, safety, financial assistance and awards, graduation and university advancement, and reporting to government. The University is also required to report student-level enrolment-related data to the Ministry of Advanced Education and Skills Development as a condition of its receipt of operating grant funding. The Ministry collects this enrolment data, which includes limited personal information such as Ontario Education Numbers, student characteristics and educational outcomes, in order to administer government postsecondary funding, policies and programs, including planning, evaluation and monitoring activities. At all times it will be protected in accordance with the Freedom of Information and Protection of Privacy Act. If you have questions, please refer to www.utoronto.ca/privacy or contact the University Freedom of Information and Protection of Privacy Coordinator at McMurrich Building, room 104, 12 Queen's Park Crescent West, Toronto, ON, M5S 1S8.

Course Selection

For the Biomedical Engineering Minor, please indicate the courses you propose to take and which year you propose to take them. You are not required to take your courses in a particular order, unless required for prerequisites.

This information is merely for our planning purposes and does not in any way commit you to taking a particular course, nor does it guarantee your placement in the course or that your course plan will be approved by your home Department or the Director of the Minor.

Students must complete all 5 mandatory courses to successfully complete the minor. Where applicable, students will be able to utilize technical electives or free electives for their minor. **It is strongly recommended that students meet with the Undergraduate Programs Assistant, IBBME to assist in timetable scheduling.**

Mandatory Credits:

If you take more than two, the extra course may be able to count as an elective below.

<u>Mandatory Courses</u>	<u>Course Code</u>	<u>Already Taken/enrolled</u>	<u>2019-2020</u>	<u>2020-2021</u>	<u>2021-2022</u>	<u>2022-2023</u>
Engineering Biology	CHE353H1 F					
Physiological Control Systems	MIE331H1 S					
Biomedical Engineering Technology and Investigation	BME440H1 S					

Note: For Engineering Science students who transferred into another program, BME205H1 can replace CHE353H1 and is an eligible pre-requisite for MIE331H1.

<u>Course</u>	<u>Course Code</u>	<u>Already Taken/enrolled</u>	<u>2019-2020</u>	<u>2020-2021</u>	<u>2021-2022</u>	<u>2022-2023</u>
One of:						
Biomechanics I	MIE439H1 S					
Human Whole Body Biomechanics	BME430H1 S					
One of:						
Applied Research in Biomedical Engineering	BME499Y1 Y					
Biomedical Engineering Capstone Design	BME498Y1 Y
