Job Posting – CUPE 3902 Unit 1
Teaching Assistant
APS163 – Online Calculus II, Summer 2022

Topics include: This course focuses on the fundamental tools of calculus and its connections to engineering. The topics include methods of integration, an introduction to differential equations, series and Taylor series, vector differentiation, and partial differentiation. Problems combining calculus with geometry, linear algebra, statics, and mechanics will be examined.

At least Two (2) Teaching Assistant positions are available for APS163, from May 09-June 30, 2022
The contract will be for 60 hours per Term, at the rate of $47.17 per hour, plus 4% vacation pay.

Qualifications: We are looking for an applicant with at least a M.Sc. in either Mathematics or Engineering, with experience teaching first-year engineering calculus. The applicant should be very comfortable working with Quercus and be able to handle administrative duties that use its applications. Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties online include:

- Delivering the lectures and tutorials (with Instructor) throughout the Summer term May 09-June 30, 2022
- Providing scheduled office hours for students
- Setting assignments, midterm, and final exam
- Coordinating the work of the course teaching assistants
- Grading final examination papers

Tentative Online SYNC Lecture schedule: Monday, Wednesday, Thursdays 6-7 pm
Tentative Online SYNC Tutorial Schedule: TBD

Estimated Course Enrolment: 60 students

The course and duties will be offered in-person (or a hybrid of online/in-person), the final decision about the delivery will be made/communicated by the University at a later date.

The Faculty of Applied Science & Engineering and First Year Office thanks all applicants for their interest; however, only those candidates considered for the position will be contacted.
Submit application online via:
