

Cross-Disciplinary Programs Office

Preliminary Approval 2023–2024 Thesis/Design Project

If you wish to have your Thesis or Capstone Design Project count toward your electives for your minor, you must obtain approval. To obtain approval, please complete the following:

- 1. Provide your personal information.
- 2. **Provide a one-page description of your project or research**. This must justify how the work you will be undertaking relates to your minor of choice. Generic department/course descriptions are unacceptable.
- Obtain your supervisor's signature and email your completed form and description to the Cross-Disciplinary Programs Office by September 29, 2023: engineering.minors@utoronto.ca

Following completion of your final report, you must provide a **one-page summary** of your results. If this is a group project, a 2nd page with the individual work breakdown will be required. Approval at this time is conditional on your final submission to us. **This form does NOT replace any documentation required by your home program.**

Personal Information Please indicate your minor:			
Advanced Manufacturing Artificial Intelligence Engineering Bioengineering	Biomedical Engineering (thesis on Engineering Business Environmental Engineering	Nusic Performance Nanoengineering Robotics and Mechatronics	Sustainable Energy Music Performance
Name of Student		Student Number	Phone Number
Email Address		Program	Course Code
2. Attach Description			
Thesis/Design Title and Project Number (f applicable)		
Is this a group project? Yes No	If yes, how many members are	in the group?	
I verify that the attached description accu	ırately describes the work Ι intend to ι	undertake for this course.	
Student Signature		Date	
3. Supervisor Signature			
Name of Supervisor	Supervisor's	Email Address	
I agree to supervise this student's work or	the specified topic: Yes	No
