

CIS Angular Upgrade

What's Changing for Instructors

A plain-language guide to what's different in CIS starting July 6, 2026.

ANGULAR 20 UPGRADE

INSTRUCTOR

RELEASE 7.0.0

OVERVIEW

CIS is moving to a single, unified Angular 20 codebase across all divisions. This is a technical modernization — your workflow, deadlines, and submission requirements are not changing. What you'll notice is an updated look and feel, along with a few usability improvements described below.

WHAT'S STAYING THE SAME

- The information you provide across CIS modules (Syllabus Builder, Exam Details, Final Exam, Deferred Exam) is unchanged
- Your login, access, and deadlines are unchanged
- Approval workflow (DA review) is unchanged

SYLLABUS BUILDER FORM UPDATE

NEW

KPE · MUSIC · ARCLA

What changed

- KPE, MUSIC, and ARCLA move from the previous 3-step Syllabus Builder form to the full 9-step form used by other divisions
- All divisions now use the same 9-step structure going forward

The new 9-step form status and step navigation, now used by KPE, MUSIC, and ARCLA

MARKING SCHEME REDESIGN (STEP 5)

NEW

INSTRUCTOR

What changed

- Step 5 of the Syllabus Builder has an entirely new layout and design
- Applies across all divisions using the 9-step form
- Same information is required — only the presentation has changed

Marking Scheme — Assessment Table

Title *	Type *	Dates(s) *	Percent *	
Final Exam	Final Exam	Final Exam Period	35	
Group Paper	Written	No Specific Date	20	
Module Test	Test	2026-07-08, 2026-08-05	20	
Compilation	Case Study	2026-07-31	20	
Attendance	Attendance	Ongoing	5	
Total:			100%

New Marking Scheme — assessment table with Add Assessment modal

What changed

- **Continue no longer saves your data** — it only moves you to the next step and does not save the current one
- Click **Save** before proceeding to the next step. Data validation occurs when Save is clicked
- If you click Continue without saving, changes made on that step will not be saved
- **Auto-save** is triggered after 2 minutes of inactivity on a step
- Every Save and auto-save shows a timestamp confirming when the form was last saved. This applies to all CIS modules

Best practice: Click Save on each step, resolve any validation issues, then click Continue.

Step 6: Course Schedule & Outline

Resolve these errors:

- Please indicate whether you want to include a week-by-week outline.

* Indicates a required field.

Please use the area below to enter your course schedule information. You can choose to use the table formatting provided by the Syllabus Builder or format your own course schedule. If you have a course schedule made in an external tool such as Word or Excel, you can copy and paste that content into the field.

Do you want to include a week-by-week outline? *

Please indicate whether you want to include a week-by-week outline:

☐ Yes

☐ No

Save **Continue**

This form was last saved at 4:56:42 PM (EDT) on 2026/07/03.

Save / Continue buttons, validation message, and save timestamp

SUMMARY STEP ACCORDION

NEW

INSTRUCTOR

What changed

- The final Summary & Submission step in Exam Details, Final Exam, and Deferred Exam now presents your answers in an expandable accordion, organized by step
- Expand a step to review the answers you gave, or use "Edit on Step X" to jump back and make a change

Step 4: Summary and Submission

You are submitting the Summer 2026 exam details for the following sections:

- ANTH200H1 & LAC 1001

You will not be able to modify your selections using CIS after submitting, but you can contact your Departmental Administrator to make changes to your details.

Before submitting your Exam Details for Summer 2026, ANTH200H1 & LAC 1001 to your Department, please check the details below to ensure you answered them as intended.

Step 1: Exam Information

Will this course have a final exam? Yes

Is Person on Outline: In Person

Exam is In-person: No

Exam is Open Book: Yes

Step 2: Exam Scheduling

Step 3: Exam Supplies

Submit to Department for Review

BUTTON-TO-NOTIFICATION CHANGE

INSTRUCTOR

What changed

- After a submission action, the button now disappears and a success notification appears — instead of the button remaining visible in a disabled state
- This confirms your action was received; no need to click again if the button disappears

Before — Submit button visible

Submit to Academic Unit

[Back to Course Overview](#)

Note: To give your students access to the syllabus, please upload it to your course website (e.g., Quercus).

This form was last saved at 4:14:11 PM (EDT) on 2026/07/03.

After — Success notification

0 / 3000 characters

✓ You've sent the syllabus to the Department for Review on 2026-07-02. Any changes to the Contact Information step will be made available to your Academic Unit as soon as you save them. If other changes to your submission are required, please contact your Departmental Administrator.

Note: To give your students access to the syllabus, please upload it to your course website (e.g., Quercus).

This form was last saved at 10:43:41 AM (EDT) on 2026/07/02.

Before: Submit button visible · After: success notification

WHAT YOU NEED TO DO

- No action is required — CIS will be updated automatically on July 6, 2026
- Clear your browser cache if the interface looks unfamiliar after the release
- Contact your CIS support team if anything looks incorrect or behaves unexpectedly
